- I enjoy good public art and have participated in producing some.
- I like it if it fits the area it's in.
- I like it if it's beautifying something that is already existing and it's very well done. I think it's a waste of money if we are adding it purely for aesthetic effect.
- I studied graphic design, but don't currently work in an art field

A fountain.

Beautiful buildings (the zoning commission has approved some shamefully ugly projects), statues--especially in the roundabout, public theater and music rather than just school oriented performances.

I also like murals , functional art , interactive art , walk art and earthworks. Any art really as long as it goes with where it's being displayed. I love historical art.

I like the BPOE overhead stage structure that was donated in the park. But Kuna is growing and I noticed more and more people is trying to enjoy the structures that the city has. It would be nice to have have a stage display area that can be built in a cer

All around

All of the above

All over town

Along the roads coming into Kuna, along Meridain road and into down town

Everywhere

Higher foot traffic areas

Near the streets and in town

Parks

Performance centers

The roundabout. Please. It's the ugliest roundabout I've ever seen, despite the manicured "K." But plain gravel--really? A large hawkson a-tree statue would improve it greatly. Or even just some large, artistic rocks...

What kind of art would you like to see in our downtown? On our Greenbelt? Near the library?

A greenbelt expansion along the Indian creek that goes to the opposite end of Kuna that leads all the way towards Riddleys.

All kinds

All types

I love the idea of interactive art. Maybe art that reflects our Native American heritage or birds of prey.

Just good art with varied styles

Leave things as they are! Improve the nature and stop letting rich assholes develop all the farms into tacky subdivisions!

Accessibility. Keep it as natural as possible and low maintenance

downtown and greenbelt

Enhancement of location, visibility & access.

Public access, especially for those that are disabled

Spend on other necessary things first

The city should buy the car wash for sale and make that into a parking lot for more parking spaces for the park and build a stage and near the city hall area.

The highest traffic areas and highest visibility areas

Use the most visible places first
