On October 16, 2013, the developer came before City Council to request several amendments to the development agreement. Of concern is the request to allow a right in, right out turn on Highway 69. Staff, the City Engineer and ACHD did not object to this amendment and the traffic study was performed with this configuration. However, the

motion to approve the requested changes failed to include this change. The City Engineer has signed off on the construction plans and the applicant has commenced with a right in, right out turn onto Highway 69. Mr. Hays was not in attendance to the meeting so the request was not discussed.

3. Old Business:

- A. Discussion with Idaho Humane Society Regarding Animal Control Services – Jeff Rosenthal, Executive Director (*Timestamp 00:16:50*)

Jeff Rosenthal, CEO of the Idaho Humane Society, explained due to the growth in their organization they added another level of administration bringing on Leon Gilbert as their CFO. It was noted Officer Morris McCall has 29 years of experience with the Humane Society who was also in attendance at the meeting to answer any questions.

Mayor Nelson explained during the budget process and consideration of the new contract, the Council had concerns on response times for animal control services.

Council President Cardoza explained two separate incidents that required animal control services for stray dogs that he picked up and expressed concerns on the lack of services that he received from the Humane Society.

Mr. Rosenthal apologized for the way things were handled explaining the animal control officers do pick up stray animals from citizens who report them. Response times are on a triage basis where they respond to the more critical calls quicker than the less critical calls.

It was explained that beginning in October the Humane Society will be providing animal control services to the City of Meridian. This will allow more officers to respond to calls in Kuna.

A report was given on call closure times to assure the Council that the response times are reasonable. It was reported they respond to approximately 450 calls in Kuna on an annual basis.

Cats are picked up if they are contained and the humane society provides traps to the citizens for this purpose.

A suggestion was made to place a public notice in the utility bills with information regarding the Idaho Humane Society and the services they provide. The Humane Society staff will work to improve the communications between their office and the Animal Control officers.

- A. Discussion on Rescheduling or Cancelling the Regular City Council Meeting Scheduled on Election Day, November 5, 2013 (*Timestamp 00:42:43*)

She proposed the scheduled meeting be re-scheduled for the following day.

It was the consensus of the Council to reschedule the meeting for the Wednesday following the first Tuesday of the month.

A suggestion was made to put a poll question on the website to solicit input from the community to see how citizens feel about the old gym facility. The question could be worded to see if it is the building itself that is desirable or the location.

More discussion followed regarding the current use of the building along with maintenance and improvements costs.

(Timestamp 01:07:18)

Council Member Buban-Vonder Haar suggested giving out Chamber of Commerce certificates to the employees at Christmas time instead of the coupons for turkeys or ham. This would allow all businesses in Kuna a chance to benefit from them.

(Copied from Kuna City Council Meeting Minutes dated October 16, 2012.)

5. Public Hearings: (7:00 p.m. or as soon thereafter as matters may be heard.)

- A. **07-03-DA: Profile Ridge Subdivision: Development Agreement Amendment:**
The applicant is requesting an approval from the City Council for three amendments to the recorded development agreement and signed conditions of approval in relation to the commercial aspects of the approved preliminary plat for Profile Ridge Subdivision.

Maranda Obray explained the requested amendments to the application. The amended language will allow for the rezone and preliminary plat amendment to be requested without the need to amend the development agreement once again. The City Council's Findings of Fact, Conclusions of Law did provide a breakdown of the acreages and number of single-family/commercial lots that would be provided; however, they were not listed in the conditions of approval. Therefore, the new numbers will be addressed through the rezone and preliminary plat amendment applications. It was suggested the new numbers be entered into the amended development agreement prior to being re-recorded.

Curb and gutter requirements were discussed noting ACHD does not require the installation of curb and gutter by developers along any roadways classified as arterials. These roadways are improved by ACHD when the surrounding area warrants the improvement. Staff recommends revising the language within the Conditions of Approval to leave the option open for the requirement of curb and gutter on Deer Flat Road leaving the decision to Council for providing instructions on what to follow for all future developments along arterial roadways.

Council President Cardoza expressed concern on accumulation of surface water on the roadways when curb and gutter does not exist.

Mr. Law explained his concern was on how things would look when city streets are left unfinished for long periods of time.

More discussion followed favoring the requirement for installing curb and gutter.

Mayor Nelson opened the Public Hearing at 8:35 p.m.

SUPPORT

Jeff Ward, 290 S. 5th Street, Boise, Idaho, attended the meeting on behalf of the applicant. He likes the curb & gutter idea and prefers the finished look along Deer Flat.

NEUTRAL

Dan Borrow, Idaho Mutual Trust, owns the portion of the development that is residential and they are under the same development agreement. He is not for or against the changes but wanted to express that these properties are now owned by multiple parties

and they want to protect their interests. They do have concerns with modifying the plat but will express more concerns about that at an additional date. He wants to protect the residential portion noting the drive through area may be a problem. Currently the development agreement asks for 6' vinyl fencing. If the Council feels that is adequate, so be it, but suggested any cost savings be applied to increasing a sound barrier between residential and commercial properties.

Mayor Nelson asked if they have worked with P&Z. Mr. Borrow stated they have not been actively involved but will be paying attention to what is taking place. The Mayor advised him to work with P&Z.

It was noted the material of the fence can make a huge difference. At a different location, a concrete block wall was installed rather than the vinyl fence. Mr. Borrow indicated preference to the concrete wall.

OPPOSE

None

Mayor Nelson closed the Public Hearing at 8:45 p.m.

A landscaped roundabout with a water feature in the center was discussed noting the water feature may be a distraction. An agreement would have to be made on who maintains the landscaping.

A right-in/right-out entrance was discussed. A Traffic Analysis Study would address the entire site and the need for a deceleration and/or acceleration lane on SH69.

Council Member Buban-Vonder Haar moved to approve 07-03-DA Profile Ridge Subdivision Development Agreement Amendment as proposed with the following changes:

- **D.A. Section 4.1.1:** Remove the specified residential and commercial unit numbers provided and replace with a nondenominational amount; adding “per adopted preliminary plat” to the last sentence;
- **D.A. Section 4.1.32.3:** Retain “Vertical curbs and gutter may be required to be constructed on arterial streets according to ACHD and Council discretion;”
- **CC FoF, CL Section H: Site Specific Conditions of Approval: #5:** Retain the curb and gutter requirement along W. Deer Flat Road; and
- Meet all conditions of approval.

Seconded by Council Member Stear with the following roll call vote:

Voting Aye: Council Members Hoiland, Buban-Vonder Haar and Stear

Voting No: Council President Cardoza

Project Summary:

The applicant is requesting for an approval from the City Council for three (3) amendments to the recorded Development Agreement (DA) and signed Conditions of Approval in relation to the commercial aspects of the approved preliminary plat for Profile Ridge Subdivision.

Proposed amendments:

- *Request to change the language under D.A. Section 4.1.2 from "Developer agrees to the construction and development of up to 143 single-family residential lots, approximately 39.04-acres of commercial/retail/office, and /or 22 multi-family residential lots within lot 1 block 15, on the 75.08 acres of the property located of the southwest corner or Deer Flat Road and Kuna/Meridian (Hwy 69) Road as shown in Exhibit A. Development is to be done in four (4) phases." to "Developer agrees to the construction and development of XX single-family residential lots within the R-6 zone designations and commercial/retail/office and/or XX multi-family residential lots within the C-1 zone designations on the 75.08 acres of the property located of the southwest corner or Deer Flat Road and Meridian (Hwy 69) Road per adopted preliminary plat."*
- *Request to change the language under D.A. Section 4.1.19.4 and within the conditions of approval from "A landscaped right-in only entrance at E. Profile Street and N. Abstein Avenue" to "A landscaped right-in/right-out only entrance at E. Profile Street and N. Abstein Avenue".*

- *Request to change the language under D.A. Section 4.1.19.5 and within the conditions of approval from "A landscaped roundabout with water features located at E. Profile Street and N. Abstein Avenue" to "A traditional intersection located at E. Profile Street and N. Abstein Avenue."*

Staff Evaluation – Development Agreement/Conditions of Approval amendment analysis:

Based on the Staff's review of the application, Staff concludes that this application complies with Section 5-14 and Title 6 of the Kuna City Code, and the Kuna Comprehensive Plan as amended.

The language found within the recorded Development Agreement Section 4.1.32.2 [Page 4 of 11] and City Council's signed Findings of Fact, Conclusions of Law [Page 19 of 22] referring to the installation of curb and gutter along arterial roadways, has been brought into discussion. Staff requests direction from the Council whether to remove the language for the installation of "curb [vertical or rolled] and gutter" along Deer Flat Road and all arterial roadways in general; or whether to revise the language to keep the option open, allowing the City Council to make the final determination based on the development brought before you. ACHD does not require nor want the installation of such improvements be constructed by developers along any roadways classified as arterials; such roadways are improved by ACHD at a time when the surrounding area warrants the improvements and paid for from impact fees collected.

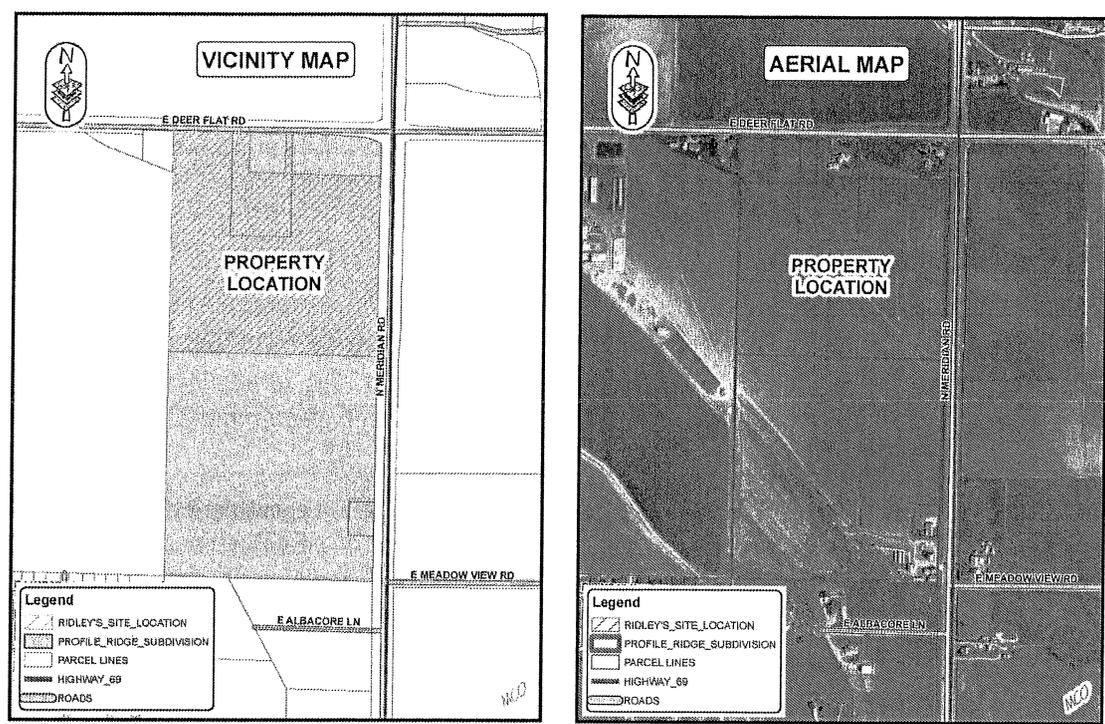

Staff forwards the request to the City Council for your review and determination relative to the applicant's proposed amendments and Staff recommendations.

C. Staff Analysis/Findings for Consideration:

1. Proposed Amendments to Development Agreement and Conditions of Approval:

1.1: D.A. Section 4.1.1: Page 2 of 11

"Developer agrees to the construction and development of up to 143 ~~XX~~ single-family residential lots within the R-6 zone designation, approximately 39.04 acres of and commercial/retail/office, and/or 22 ~~XX~~ multi-family residential lots within lot 1 block 15 the C-1 zone designations on the 75.08 acres of the property located of the southwest corner or Deer Flat Road and Kuna Meridian (Hwy 69) Road per adopted preliminary plat, as shown in Exhibit A. Development is to be done in four (4) phases."

Staff Comment:

In amending this language, this will allow for the rezone and preliminary plat amendment to be requested without the need to amend the development agreement once again. The City Council's Findings of Fact, Conclusions of Law did provide a breakdown of the acreages and number of single-family/commercial lots that would be provided; however, they were not listed in the conditions of approval. Therefore, the new numbers will be addressed through the rezone and preliminary plat amendment applications. Staff would recommend that City Council, as part of your determination, make it as part of your motion [should you approve the request] that new numbers be entered into the amended development agreement prior to being re-recorded.

 CC FoF, CL Section G: City Council Decision: Page 18 of 22
 CC FoF, CL Section H: Site Specific Conditions of Approval: #33: Page 20 of 22

"A landscaped right-in/right-out entrance at E. Profile Street and N. Abstein Avenue located at the quarter mile."

Staff Comment:

Correspondence [See Exhibit 7] between CSHQA; Gordon Law, City Engineer; Wendy Howell, Planning Director; and Dave Szplett, Idaho Transportation indicate the support for the change. A Traffic Analysis Study (TIS) will determine the need for a deceleration and/or acceleration lane on SH69.

- 1.3: D.A. Section 4.1.19.5: Page 3 of 11
 CC FoF, CL Section H: Site Specific Conditions of Approval: #6: Page 19 of 22

"A landscaped roundabout with water features traditional intersection located at E. Profile Street and N. Abstein Avenue."

Staff Comment:

The Ada County Highway District (ACHD) roundabout design guide section 5188.8.1.8 recommends against items that are likely to distract drivers' attention and/or encourage pedestrians to venture to the island, such as water features. The TIS will determine the appropriate signalization or signage warranted for the intersection.

- 1.4: D.A. Section 4.1.32.3: Page 4 of 11

"Curb and Gutters: Vertical curbs and gutter shall be constructed on collector streets. Vertical curbs and gutter may be required to be constructed on arterial streets according to ACHD and Council discretion. Rolled curbs and gutters or other landscaping and drainage as may be established by ACHD and the Council and consistent with subsection G of this section shall be required on minor streets. All construction shall be in accordance with the standards and specifications adopted by ACHD and the Council."

CC FoF, CL Section H: Site Specific Conditions of Approval: #5: Page 19 of 22

"The applicant/owner must meet requirements of Kuna City Code 5-17-3 requiring a 30-foot landscaped buffer along an arterial road (Deer Flat Rd) with curb, gutter and eight foot (8') wide sidewalks."

Staff Comment:

ACHD does not require the installation of such improvements be constructed by developers along any roadways classified as arterials; such roadways are improved by ACHD when the surrounding area warrants the improvement.

However, Staff recommends revising the language within the Conditions of Approval to leave the option open for the requirement of curb and gutter on Deer Flat Road; leaving the decision to Council for the direction in which you wish Staff to follow for all future developments along arterial roadways.

Government Agency Review:

2.1: Ada County Highway District (ACHD) – Stacy Yarrington – Exhibit 8

The construction of a traditional intersection instead of the proposed roundabout; ACHD has no objection to the amendment. However, the language proposed for the installation requirement of STOP signs on the north/south bound approaches of E. Profile Street and N. Abstein Avenue intersection be removed. Any warrants signage will be required by ACHD as part of the construction drawing review as the plat moves forward through the final plat approval process.

Staff Comment – *As part of the applicant’s proposal, they proposed the location of said STOP signs; Staff does not have any objection to ACHD’s comments.*

2.2: City Engineer – Gordon Law – Exhibit 9

1. The City Engineer does not object to amending the Preliminary Plat but does have concerns with eliminating any reference to the maximum number of residential lots allowed. The City Engineer would recommend simply adjusting the number of residential lots to reflect the amended preliminary plat.

Staff Comment – *Staff has added language to the proposed amendment (blue highlight) to reflect the City Engineer’s comments. In addition, as part of the applicant’s rezone and preliminary plat amendment application process, Staff shall recommend to City Council as part of their determination to add specific numbers related to the commercial and residential lots shown on the preliminary plat to the development agreement.*

*4. At the request of a separate applicant (and possibly ACHD), staff has also proposed removing any reference to requirements for curb and gutter on arterial roads. The City Engineer recommends against this proposal as being against the best interest of the City. ACHD proposes providing curb and gutter with impact fees but only at the time, the road is constructed at its final planned width. It is the opinion of the City Engineer that such policy (without requiring new development to provide it) guarantees the City will be left without curb and gutter on their most important roads for many years into the future. **Most of our commercial development will be on these roads, and the arterials will be left as the worst looking, dirtiest, least functional roads in town.***

2.3: Idaho Transportation Department – Dave Szplett – Exhibit 10

1. Item C.1.1: The concept of the right-in/right-out access at Profile Street does not meeting current ITD Policy. However, previous agreements between the property owners and ITD have deeded the Profile Street intersection with SH-69.

2. Item C.1.1: The proposed island in the Profile Street will not ensure the prohibition of left turns at the intersection with SH-69. A raised median in SH—69 should be anticipated. The final design of the proposed Profile Street intersection will be finalized when a formal application is received by ITD.
