

Kuna Downtown Revitalization

Revitalizing the heart of Kuna

Project Update

April 8, 2020

CONSTRUCTION AHEAD

Construction for Phase 2 of the Kuna Downtown Revitalization project is scheduled to begin April 20th and is expected to be complete by late July 2020. Improvements will occur along Main Street between Avenue A and Avenue C, to include new curb, gutter and widened sidewalks with landscaping, stamped concrete and decorative streetlights.

PROJECT PHASING

- Phase 1, Main Street, Ave C to Ave A (South Side) – April 20th through June.
- Phase 2, Main Street, Ave C to Ave A (North Side) – June through July 31st.

WHAT TO EXPECT

Traffic

- One lane of traffic will remain open in each direction most of the time.
- Slow down. Watch for pedestrians and cyclists in the area.
- Plan ahead for extra commute time, and please be patient.

Parking and Business/Resident Access

During construction, crews will maintain access to driveways and businesses as much as possible. Inevitably, there will be some impacts during construction. For instance:

- New pavement requires 1-2 hours to set up; **when crews are paving in front of driveways, access will be limited.**
- On-street parking may be restricted during construction; in some areas, on-street parking may be eliminated once the project is complete. **When crews are working in your area, please do not park in the work zone.**
- The project team recognizes the inconvenience construction presents and will coordinate with property and business owners in advance.
- **If you have special considerations pertaining to access, please let the project team know in advance.**
