

Kuna Downtown Projects – Website Suggestions for 4th St Project

Phase 3 – 4th Street Revitalization

The City of Kuna is considering improvements to revitalize 4th Street from School Avenue to Linder Avenue, as identified in the Kuna Downtown Revitalization Plan. Improvement designs will address sidewalks, parking, lighting, utilities, and drainage.

We greatly value input from the public on all City projects. As noted in the timeline graphic, there will be several opportunities for the public to provide feedback throughout the design process. Details for public events will be posted on this website once available. You may email the project email to be notified when these details are posted. Recordings and summaries of all meetings and events will be posted to this website.
